<b>University of Mumbai, HIGHER SECONDARY( 12th )</b> <ul style="list-style-type: none"><li>Grade: 60%</li></ul>	2016 – 2018

## TECHNICAL SKILLS

---

**Technologies/Frameworks:** HTML5, CSS, Bootstrap, JavaScript, React.js, Redux,

**Version Control:** Git, Github

**DataBases:** SQL

**Personal Attributes:** Documentation Skills, Problem-solving, Effective Communication, Analytical Skills

## PROJECTS

---

### E-LEARNING

- Developed an interactive e-learning platform using HTML, CSS, and JavaScript.
- Designed and implemented a responsive user interface to ensure a seamless experience across devices.
- Utilized CSS to design visually appealing layouts and improve usability.
- Enhanced user engagement through interactive elements like animations and dynamic content updates.

### Explore the World, One Country at a Time.

- In this project, we will create a dynamic, responsive multi-page website using React 19, featuring seamless navigation with React Router DOM and real-time data fetching with Axios.
- Key functionalities include search, filter, and sort options, along with user-friendly forms for input management.

### GYM WEBSITE (FITNESS)

- Developed a fully responsive website for a gym using HTML5, CSS, JavaScript. Employed performance optimization techniques for efficient loading and smooth user interactions.
- A gallery of images showcasing the gym's facilities.
- The website also includes a schedule of classes and events, a gallery of images showcasing the gym's facilities, and a blog for posting updates and tips on fitness and wellness.

## CERTIFICATIONS

---

- MS-CIT
- ADVANCE EXCEL

## EXTRACURRICULAR

---

Pursuing a **Full Stack developer** from Aptech Academy
